Make the Most of Database Capabilities with OAC Evaluate Function

Philippe Lions
Oracle Analytics Product Management
Sept 2019

@philippe_lions
What we would like to briefly demo with you

1. Prerequisites
2. Evaluate & Evaluate_aggr with Oracle Database Functions
   1. Advanced SQL clauses : approx count distinct / Bin,,,
   2. Predictive Queries, Text queries
   3. Custom Functions, Spatial
3. Limits : only simple function with row by row results
   1. No Tabular/Array results
   2. No Windowing
   3. ML models : use them as Datasource definitions
